Final Project

## Documentation for Google Play

1. Title: World Movies
2. Short Description: Find and check movies from all around the world
3. Full Description: An app, which can be used at all times in order to find rare movies from all around the world. You can either check a movie or Insert a new one. The application includes all the necessary information for every movie.
4. Category: Library and Demos
5. Rating level: Everyone
6. Pricing and Distribution: Users can download an app for free, but they cannot access the full set of features without upgrading to the paid version. Paid version includes adding a movie and use the imbd button.
